200 N. Lakemont Ave.  601 East Rollins
Winter Park, FL 32792  Orlando, FL 32803

V. Specific Management Areas

A. Measures which may be initiated by the ARNP.

Diagnosis and treatment of work and non-work related injuries and illness within the scope of ARNP education and expertise. Monitor the course of treatment and refer to appropriate health care providers as indicated. Coordination of care and case management including, but not limited to, collaboration with medical consultants and specialists or other health related providers.

Fitness for duty and screening evaluation including duty restriction, inability to work and return to work status as medically indicated.

B. Conditions which therapeutic measures may be initiated by the ARNP.

Musculoskeletal: Strains, sprains, fractures, dislocations, contusions, effusions, inflammation or any other condition which the ARNP has been educated to treat.
7. Removal of ear or nasal foreign bodies
8. Nasal packing, anterior and posterior
9. Cautery of anterior septum
10. Insert foley catheter
11. Insertion naso-gastric tube
12. Replacement of Gastrostomy Tubes
13. Replacement of suprapubic catheters
14. Any other procedure which the ARNP has been educated to perform.
15. Any other procedure or lab test determined necessary.
16. Prescription drugs not mentioned in the aforementioned section, which are medically necessary.

F. The ARNP may collaborate with any physician at the request or necessity of the client to facilitate proper and prompt management of any health related injury or illness.

VI. Duties of the Collaborative Practice Physician
The duties of the Collaborative Practice Physician are as follows:

- Provide medical consultation as needed for any care related issue
- Hands on physical evaluation of any client at the ARNP request
- Provide suitable backup in the event the physician is unavailable
- Intermittent and periodic evaluations related to quality assurance

If the physician is not available, the current medical staff of Florida Emergency Physicians ("FEP") will serve as backup for consultation, collaboration and/or referral purposes.

VII. This agreement will be reviewed and the renewal of protocol shall take place with the board upon biennial license renewal or when alterations or amendments need to be filed.

VIII. This agreement shall be supervised and be performed under general collaborative supervision at the discretion of both parties.
